

A division of Hutchinson Industries

### **Wheel Identification Locations**

Whether you are using a steel or alloy wheel, there is usually an area on the rim where the manufacturer puts the various codes. The following is a guide for searching for identification criteria. Please record all alphanumeric characters & logos.

#### ***Steel Wheels***

There are four different places to look for identification characters:

1. the inside lip of the rim

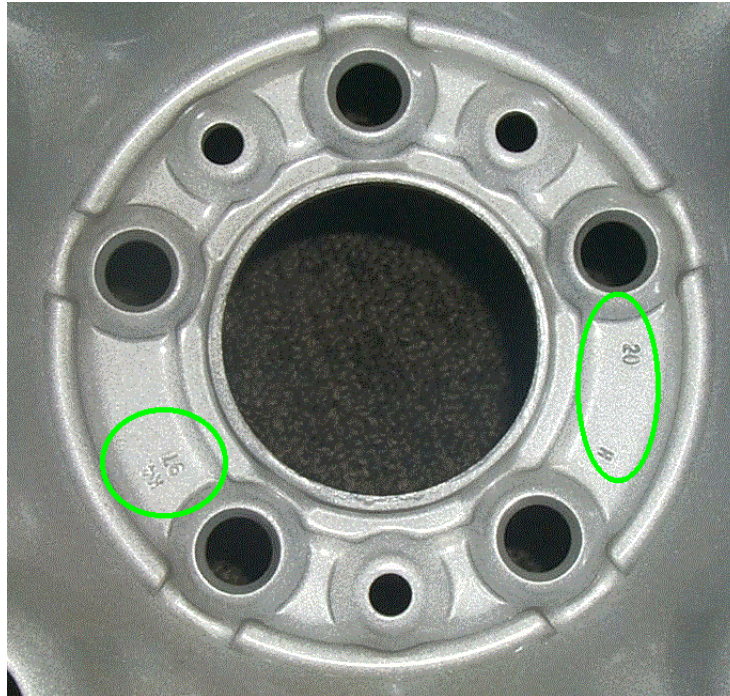

2. the inside drum of the rim

A division of Hutchinson Industries

3. the outer face of the disc

and

4. the inner face of the disc

### *Alloy Wheels*

There are two different places to look for identification characters:

5. the outer face of the hub

6. the inner face of the hub
