

MOLDED POLYMER SOLUTIONS

RODGARD
DEDICATED TO PROVIDING
COST EFFECTIVE SOLUTIONS
FOR YOUR MOST
CHALLENGING
APPLICATIONS.

TOTAL SOLUTIONS

From CONCEPT DESIGNS to
COMMERCIAL FULFILLMENT!

IF YOU THINK IT CAN'T BE DONE
OR DONE BETTER, THINK AGAIN!

MATERIALS EXPERTISE

Wide range of high performance thermoplastic elastomers including Hytrel, Nylons, Urethanes and many others.

RIM urethane & RIM nylon to meet specialized needs.

Polymer processing expertise.

CUSTOM COMPOUNDING

- glass reinforcement
- carbon fiber composites
- colorants
- internal lubricants
- UV, heat and hydrolytic stabilizers

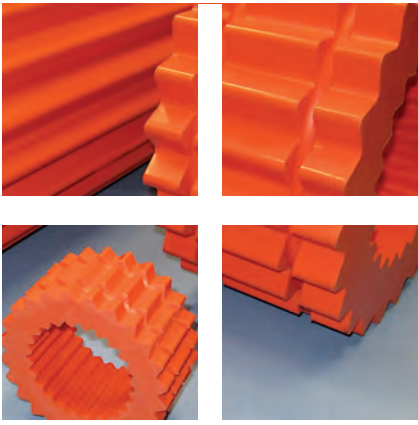

PROPRIETARY DESIGN AND DEVELOPMENT

Rodgard specializes in custom molded solutions with the highest respect for our customer's confidentiality.

COMPREHENSIVE ENGINEERING SERVICES

- FEA
- Solid Modeling
- RTV prototype molding
- Parts and Tool Design
- CNC machining
- Rapid Prototyping
- Novel product performance simulations to validate design concepts

// DEDICATED TO PROVIDING COST EFFECTIVE SOLUTIONS FOR ALL OF YOUR MOLDED POLYMER NEEDS. //

APPLICATIONS

Wheel Covers

Tool Mounts

Maritime Ladders

Composite Gears

Engine Brackets

Shock Mounts

Shock Pads

Stock Shapes

EXTENSIVE MANUFACTURING CAPABILITIES

LOW COST TOOLING A fraction of the cost of high pressure injection molding

SHORT RUN EXPERTS

LARGE PARTS EXPERTISE

Proprietary low pressure molding (up to 7' diameter and 220 lbs.)

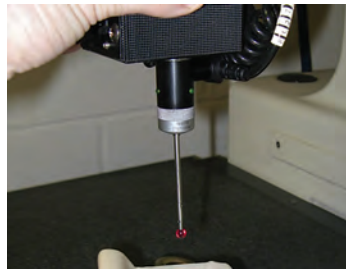

High pressure injection for large volume applications

CNC machining

Overmolding

Full assembly operations

Wide range of stock shapes also available

QUALITY AND CUSTOMER SATISFACTION

ISO 9001 certified facility

Precision quality measurements including CMM, X-Ray analysis, optical comparator, and MTS tensile measurements

Superior quality products and services... first time and everytime.
